

Bulletin Board Idea

December 2006

Reindeer Hunt

Materials:

Brown, tan, white, black and red construction paper

Glue

Scissors

What shapes do you see in your reindeer? Students will enjoy making these reindeer constructed of different shapes. Have students cut one brown triangle, 2 tan rectangles and 4 tan squares. These will be the reindeer's head and antlers. Instruct the students to cut 2 white ovals, 2 small black circles and 1 red circle. These will be the reindeer's eyes and nose. After all the shapes have been cut, glue together to form a reindeer! Display on a bulletin board for all to see!
