Word Log

Let your students practice sounding out words with this Word Log. To make a Word Log, turn a paper towel tube into a log. Add details with brown paint or markers. Cut several 1 1/4" x 11" strips of tagboard. Write words that you are studying on each strip. Insert the strips into the Word Log. Slowly pull the word out of the Log, revealing one letter at a time. Students will love sounding out words in this fun way!
