

Language Arts

Spiders are

_____ and _____ and _____!

Materials:

banner paper
crayons and markers

Your class will quickly learn and remember spider facts with this language activity. On a long length of banner paper write the word *and* on the banner two times, spacing them about 3 feet apart. Choose three students at a time to hold the banner in front of the class. Have the children make a sentence, by giving one or two about their spider facts they have learned: such as "Spiders are *black* and *hairy* and *scary*." Continue with other children until everyone has had a turn.

Create a class book by writing all the sentences that the children have recited. Have the children illustrate their personal pages. They will enjoy reading their book about spiders again and again!
